

# ACDA RAMP-UP & EXAMINATION

Let us help you become ACDA certified

The four-day ACDA Ramp-Up course prepares you to write the internationally recognised ACDA Certification on day five. ACDA Certification is a testament to your ability to integrate ACL data analysis technology into financial analyses and business processes, and provides tangible evidence of your abilities to maximise the full potential of your organization’s investment in ACL Analytics. During the Ramp-Up you will learn how to approach the examination and be taught skills which are essential for passing the examination first time around. The ACDA Examination is a closed-book certification exam and is divided into 2 components: Knowledge Inventory & Practical.

## KNOWLEDGE INVENTORY

This comprises of 90 multiple choice questions, testing overall comprehension of concepts and practices related to ACL Analytics, including best practice methodology. The Knowledge Inventory test spans six integral concepts: ACL Analytics environment, planning analysis, importing data, preparing data, analysing data, and reporting findings

## PRACTICAL

Delegates will be asked to accomplish a series of tasks & objectives within ACL Analytics. While completing the practical component of the exam, delegates are expected to exhibit best practice methodology, proper analysis procedures and will be required to submit the entire, unedited log.

### WHO

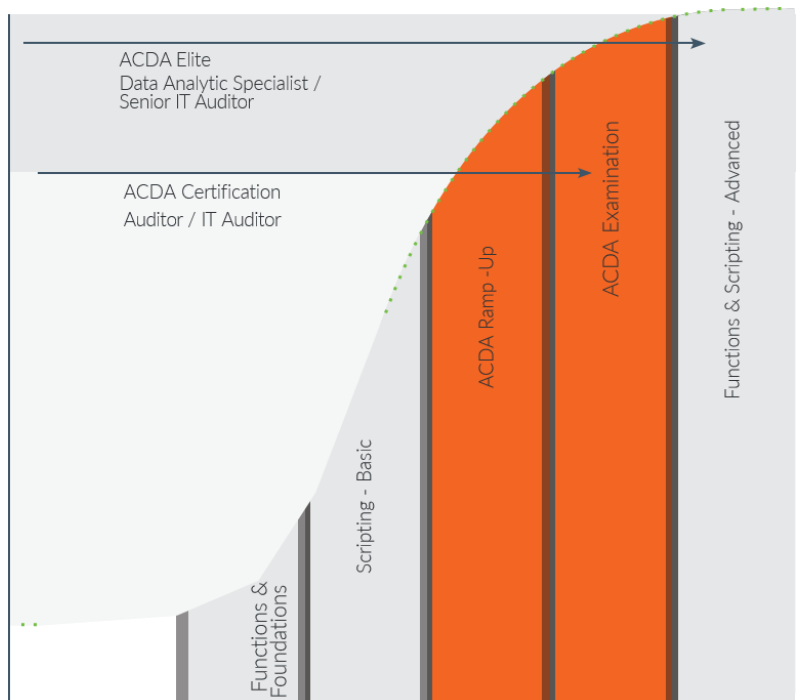

Data Analysis and Internal Auditors who have completed ACL Functions & Foundations as well as Scripting - Basic

### WHAT

4 day training course in classroom style setting and 1 day for examinations

### HOW MUCH
