

ACDA RAMP-UP & EXAMINATION (ACDA4)

Let us help you become ACDA certified

The four-day ACDA Ramp-Up course prepares you to write the internationally recognised ACDA Certification on day five. ACDA Certification is a testament to your ability to integrate ACL data analysis technology into financial analysis and business processes and provides tangible evidence of your abilities to maximise the full potential of your organization's investment in ACL Analytics. During the Ramp-Up, you will learn how to approach the examination and be taught skills which are essential for passing the examination first time around. The ACDA examination is a closed- book certification exam and is divided into two components: Knowledge Inventory & Practical.

KNOWLEDGE INVENTORY

This comprises 90 multiple choice questions, testing overall comprehension of concepts and practices related to ACL Analytics, including best practice methodology. The Knowledge Inventory test spans six integral concepts: ACL Analytics environment, planning analysis, importing data, preparing data, analysing data, and reporting findings

PRACTICAL

Delegates will be asked to accomplish a series of tasks and objectives within ACL Analytics. While completing the practical component of the exam, delegates are expected to exhibit best practice methodology and proper analysis procedures, and will be required to submit the entire, unedited log

WHO

Data Analysis and Auditors who have completed Starter Pack, Scripting Module 1 as well as Scripting Module 2

WHAT

4 day training course in classroom style setting and 1 day for examinations

HOW MUCH

- R25,000.00 excl. VAT per delegate
- \$1,950.00 per delegate
